

11 Division Break & Enters

Greetings Community Members,

We need your help.

After an upswing in residential entries in our community last month, we are reminding residents to secure their homes to prevent them.

We are receiving reports where suspects are gaining access to homes through front and rear doors.

Some crime prevention tips include locking your doors, trimming your trees and bushes around your home, don't leave windows bare and hide valuables.

Also, keep garbage bins away from homes as someone can stand on them to view inside your home, install an alarm system and camera and lock the garage when leaving.

Residents can call the 11 Division crime prevention team for a free home security assessment at 416-808-1188 or 416-808-1108.

Last year, we launched our Crime Prevention Toolkit, an envelope containing several pamphlets providing tips to prevent crimes such as residential entries, bike thefts, auto thefts and more.

Please share this message with friends and family.

For more information and to get a tool kit, contact the Crime Prevention office at 416-808-1188 or email 11division@torontopolice.on.ca.
